

Did you know that in a typical office
60% of typical office supplies budget
consists of paper, toner and ink for your printers and copiers?

Carlyle Printers, Service & Supplies is pleased to announce an addition to the Manitoba Chamber of Commerce Purchase and Discount Programs:

MCC PRINT, SERVICE & SUPPLIES BUYING GROUP PROGRAM

MCC members and associates can reduce their office budget by combining their purchasing power through the MCC member buying group sponsored by Carlyle Printers, Service & Supplies.

Even if you just buy once per year, the savings are significant and discounts are much larger than what you can find at any of the big box office supply stores.

Main Benefits:

- MCC members will receive significantly reduced prices--**up to 25%** on EcoTone Plus brand and **10%** on Original Equipment Manufacturer brands.
- 100% Guarantee on products and service quality.
- Cost reduction on general office supplies and technology products.

Offices with print volumes of greater than 5000 sheets of paper per month will benefit from **Carlyle's print management reporting** which will highlight by user and printer areas of print ineffectiveness and waste, and will make recommendations on how to reduce costs. This is a free service to all MCC members and associates.
